

Kenneth Davis, my subject is: Purpose Grants.

September I received an insulting and dismissive response to our email exchange after asking to view the Board's evidence to substantiate the mask mandate.

As Chairman of the MLOC, I am experienced in the workings of the district and this is what I have discovered.

On Sept 1 in a Board work session, you reviewed a presentation on (ESSER) Allocation Funds showing D11 had applied for and was awarded Purpose Grants - \$86.4M.

Here are just a few of the grave implications of these grants.

1. Five Governors were sent letters in August from the U.S. Dept. of Education because they had determined that mask mandates would not be allowed. These letters audaciously claimed they were interfering with the CDC's ability to issue mandatory mask mandates and contact tracing.
2. FEMA, CDC, Homeland Security, Colorado Dept. of Education and others tell you what to do. How do I know? D11's - Return to Learn website reflects the very same not Medical but Political Science same speak.
3. Documentation clearly shows the decision to mandate masks was already decided by the bureaucratic pipeline a month before your public decree in September. That makes the public comments in front of the Board nothing more than a clown show.
4. Don't obey the CDC equals no reimbursement of grant money expenditures.
5. Hidden in this CDC obedience grant are avenues for 'Equity' and "Diversity" metrics. Fancy code words for statistic reporting that divides children into groups based upon skin color, economic demographics and other buckets in opposition to the dream of Dr. Martin L King.

I agree we have a virus problem but it is not COVID-19. This virus is deceitful and devious. It is a demonic spirit that infects the heart and soul. It's the lust for money and power.

You didn't make the decision to mandate masks. You sold it for money. You surrendered control of the district to a Federal and State bureaucratic socialist propaganda machine. At what price for 22,480 students?

Moms and Dads, Guardians. Your child, everyone's child is required to wear a bacteria infested face diaper for about \$3,800 each. No more freedom to choose. Hide your face behind the mask of obedience. Forget education you're on the CDC plantation now.

When enrollment collapses and schools start closing, remember when it all started and why.
